

# YOUR GOLF SHOP'S PROFIT CENTER

Stance Mat Model & iMac System shown (Full Platform optional for Into Screen Putting).

## GOLF SIMULATOR CLUBFITTING & INSTRUCTION

Show customers empirical results- not a subjective sales pitch. Players see which clubs are best for them. State-of-the-art technology offers dynamic instruction to support higher rates. DeadSolid Golf's simulators come in a variety of models, features, & prices- let us assist you to customize your golf facility's own "profit center"- visit our website [www.deadsolidgolf.com](http://www.deadsolidgolf.com).

## SENSORS TRACK CLUB & BALL

Developed from years of expert research, DeadSolid Golf's advanced patent-pending sensors precisely measure both club & ball, then uses scientific equations for range accurate ballflight.

## INTEGRATED SWING ANALYSIS

### USER MENU

Multi-use system enables clubfitting, lessons, practice, contests & fun!

### BALLTRAC

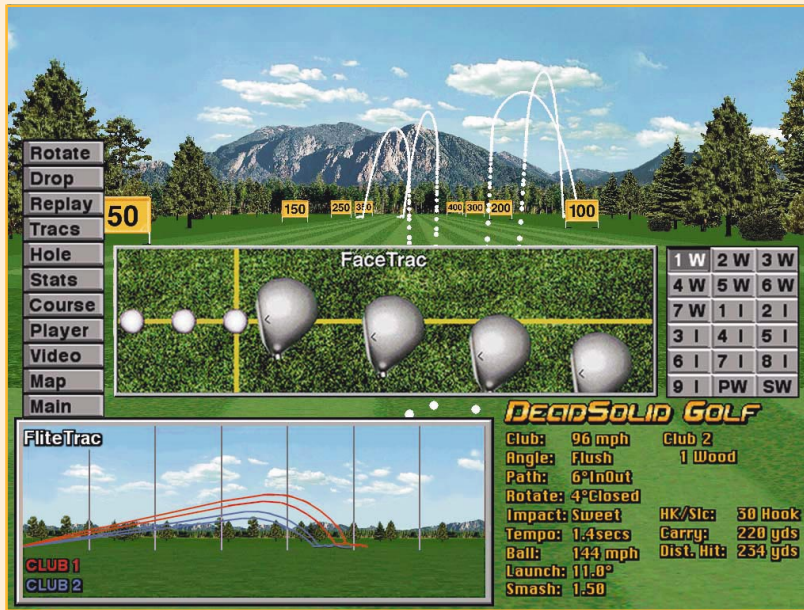

Shows the down-range view as a continuous trail of golf balls in an arch.

### FACETRAC

Realistic animation of club/ball contact. Golfers easily understand why shots flew as they did.

### FLITETRAC

Displays the side trajectory view. Each club can be color coded.

### REALISTIC BALLFLIGHT

Range tested for accurate hook, slice, carry, roll & distance.

### CLUB SELECTION

Use standard clubs, (right/left handed) conforming golf balls.

### SWING ANALYSIS

Accurate data is displayed for all shots and stored in the "ShotTracker" averaged by club.

### PLAYER INFO

Each golfer's name, score, distance to pin and hook/slice.

## ACCURACY & RELIABILITY FOR LEADING GOLF SHOPS

A pioneer in fullsize computer golf simulation, DeadSolid Golf has provided accurate and reliable swing analysis to golf facilities worldwide, since 1992. Let their success, become your success...

**EDWIN WATTS GOLF**   
 GOLF'S MOST TRUSTED RETAILER SINCE 1968™

*Note: All companies listed on this page are not endorsements of DeadSolid Golf products but are only customers.*

## COURSE PLAY, CONTEST MODES

Play 18-hole golf on challenging courses like Rancho La Quinta. Balls roll along contours of 3-D terrain, bounce off trees, & splash into water, and sand for realistic interactive play.

## CROWD DRAWING PROMOTIONS

Competitions always attract crowds, whether for golf leagues or promotions. In Longest Drive or Closest to Pin Contest modes the Leaderboard is displayed after each player's turn. Contestants' names, etc. can be entered for a customer list.

## DIGITAL VIDEO (OPTIONAL)

Easily record, examine and compare swings. With one touch you can record your swing that automatically plays back in slow motion (after your ball flies down the range or hole).

## SNAP TO KEY POSITIONS

Snap to key swing positions - Address, Top, Impact, Finish. Step frame-by-frame. The video controls work much like your VCR. Compare a golfer's swings side-by-side, synchronized to a pro's swing. Record your own Pro-Swing library.

## EXPERT CLUBFITTING PROGRAM

Clubfitting stores the Swing Analysis of up to 15 individual swings for 4 different type clubs. Quickly qualify a player's true potential "smash factor" by deleting unwanted shots.
