

PEBBLE BEACH GOLF LINKS* & MORE...

“I WAS VERY IMPRESSED WITH YOUR GRAPHICS- GOOD JOB!”

-Neal Hotelling, Director of Licensing, Pebble Beach Company, and author of the book, “Pebble Beach Golf Links: The Official History.”

DeadSolid's re-creation of Pebble Beach Golf Links is the most up to date full-size version of this world famous course. DeadSolid is the first simulation showcasing the new ocean-side 5th hole designed by Jack Nicklaus. Breathtaking vistas combined with a championship layout make Pebble Beach every golfer's dream.

REALISTIC...

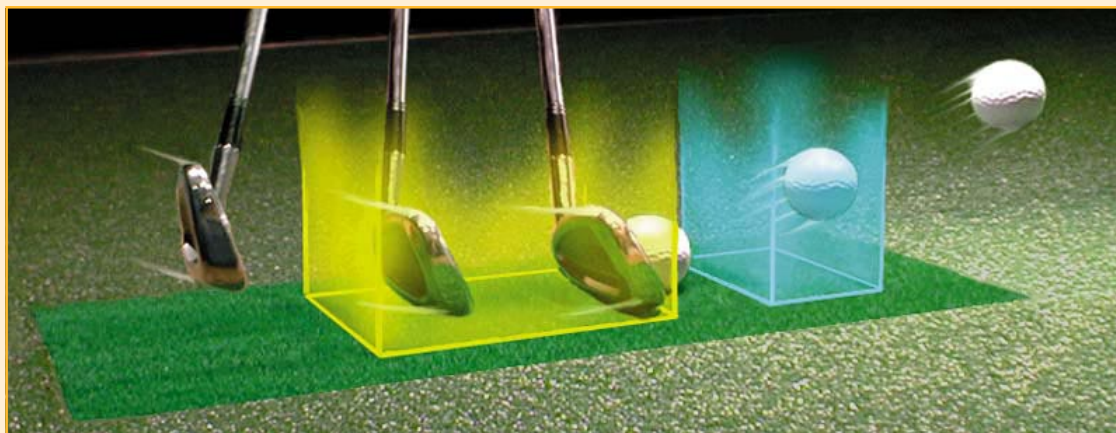

NEW OCEAN-SIDE 5TH HOLE

* "Pebble Beach, Pebble Beach Golf Links, and distinctive images of its property, including its golf course and individual golf hole designs, are trademarks, service marks and trade dress of Pebble Beach Company, and cannot be used other than for individual play of the game except with prior written permission of Pebble Beach Company."

ACCURATE...

SENSORS MEASURE BOTH CLUB & BALL

DeadSolid Golf's sensors precisely scan both club (yellow area) and ball (blue area), then uses scientific equations for range accurate ballflight.

Our simulators are independent freestanding structures - no floor or ceiling preparation is needed.

TARGET DRIVING RANGE

Our contoured Target Driving Range features seven greens with sand bunkers & gives your practice an on-course feeling. How many of these greens can you hit on the first attempt? Also, don't forget to wave hello to the DeadSolid Golf Blimp!

AMAZING MOON RANGE FUN

Like the Apollo astronauts, the unique "Lunar Long Drive" allows golfers the experience of hitting shots in 1/6 gravity. Longest Drive and Closest to Pin competitions (on earth) always attract a crowd. Be the biggest hitter in the universe!

Custom clubfitting mode stores the Swing Analysis of up to 15 individual swings for up to 4 different types of clubs. Quickly qualify a player's true potential by deleting unwanted shots. Golfers see which clubs are best for them.
