

VideoMentor™

COMPUTER VIDEO & SWING ANALYSIS

TWICE THE FEATURES- AT ONLY HALF THE COST

Video systems can cost up to \$16,000, while swing analyzers cost up to \$7,000- a total of \$23,000! VideoMentor offers both- video with swing analysis- it's so economical & affordable, why be without it?

DeadSolid Golf's Mentor Series comes in a variety of models, features, & prices- customize an analysis system perfect for your needs.

CLUBFITTING & INSTRUCTION

VideoMentor shows empirical results not a subjective sales pitch. Players see which clubs are best for them. State-of-the-art technology offers dynamic & interesting instruction that supports higher rates.

SENSORS TRACK CLUB & BALL

DeadSolid Golf's scientifically advanced patent-pending sensors precisely measure both club & ball for outdoor range tested accuracy.

PGA Professional Mike Dulina relies on VideoMentor to effectively explain golf swing fundamentals.

RANGE, COURSE PLAY, & CONTEST FUN

INTEGRATED SWING ANALYSIS

USER MENU

Multi-use system enables clubfitting, lessons, practice, contests & fun!

BALLTRAC

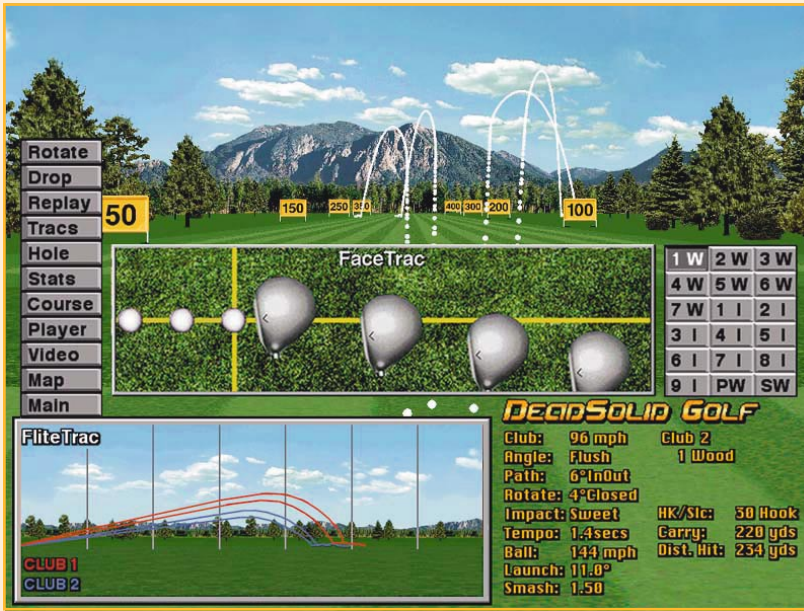

Shows the down-range view as a continuous trail of golf balls in an arch.

FACETRAC

Realistic animation of club/ball contact. Golfers easily understand why shots flew as they did.

FLITETRAC

Displays the side trajectory view. Each club can be color coded.

COURSE PLAY, CONTEST MODES

Play entire golf holes for on-course practice. Balls bounce off trees, splash into water and sand for realistic interactive play. Contest mode includes Longest Drive and Closest to Pin.

GREAT FOR EVENT RENTALS

Competitions always attract enthusiastic crowds, whether at tradeshows or promotions. The Leaderboard is displayed after each contestant's turn. Mentor systems are portable for quick setup, so doing on-the-road event rentals is easy.

EXPERT CLUBFITTING PROGRAM

Clubfitting stores the Swing Analysis of up to 15 individual swings for 4 different type clubs. Quickly qualify a player's true potential "smash factor" by deleting unwanted shots.

INCREASE CLUB SALES

Accurately fit more golfers faster to increase your sales. Enable your customers to try out the latest clubmaking technology to keep their golf games on the cutting edge. But don't take our word, ask for our list of successful clients.

DIGITAL VIDEO LESSONS

Easily record, examine and compare swings. With one touch you can record your swing that automatically plays back in slow motion (after your ball flies down the range or hole).

COMPARE SWINGS SIDE-BY-SIDE

Directly compare two of your swings or to a model swing. Swings of different tempo will automatically play back synchronized. The video controls work much like your VCR.

SNAP TO KEY POSITIONS

Snap to key swing positions - Address, Top, Impact, Finish. Step frame-by-frame. Record your own Pro-Swing library.

EASY-TO-SETUP, PORTABLE

1 Swing Analyzer configuration shown- other systems available
